The Company

Relying on the professional assistance of qualified and experienced staff and helped by a high technological and computerization level, today FRAMON S.p.A. is an important company. For 40 years it has been on the market as a manufacturing company of non-ferrous casting components for the furniture and lighting industry. It has three catalogues with about 10.000 articles ; a very good part of them is available in the warehouse. Furthermore, it realizes components by the customer's request, exclusively and with the utmost respect for the privacy. FRAMON S.p.A. is a very versatile "foundry" that makes use of some of the most important technologies of transformation of the raw materials, such as die-casting, shell casting with and without core, hot stamping, and that uses aluminium, brass, zama and some types of plastic materials. With the support of an internal designer and qualified technicians, today FRAMON S.p.A. is able to conceive, propose and develop new articles starting with the realization of drawings and possible prototypes, creating projects and stamps, up to the concrete manufacturing. The company is extremely flexible as it is able to perform every kind of mechanical processing on the castings using technological advanced and continually renewed machinery like transfers, lathes CN and machining centers. FRAMON S.p.A. proposes its articles with a surface finishing at the first step of bolting and sandblasting. On specific demand, with the help of a well-organized local craftsmanship, can also be provided the material with the superficial finishing required by the customer. Tradition and innovation, quality and competitiveness of the product, entrepreneurial ability and reliability make FRAMON S.p.A. to be an important partner for all the companies working in the lighting and furniture industry. The success of FRAMON S.p.A. is the capability to accept the challenge of the market maintaining during the years the fidelity to a working culture based on seriousness, constant inventive effort and careful technological updating.

MANUFACTURED ENTIRELY IN ITALY

MATERIALS & PROCESSES

ALUMINIUM:

- EN AB 46100 alloy for die-cast components sand-blasted with steel granules
- EN 10003/1 alloy drawn out flat using extrusion techniques
- EN 573/3 alloy drawn out into tubes using extrusion techniques

COPPER:

- EN 10204 Copper plate - 3.1B worked on a lathe

POLYCARBONATE:

- 2002/95/CE (RoHS) used for diffusers (PC) transparent and opal versions available highly resistant to atmospheric agents and impact, UV treated

GLASS:

- glass sheets 3-4 mm thick

BRASS:

- EN 1982/2000 CB 754S alloy for die-cast components in brass burnished, chrome-plated & satin finishes available

OTHER ARTICLES:

- Flood lights: AL Aluminium - Anodized
- Electrical back boxes : Polypropylene
- Gaskets : EPDM- SH
- Urban Furniture accessories: Galvanized Steel
