The logo for MODUL ELECTRO is centered on the page. It features the word "MODUL" in a large, bold, orange sans-serif font, flanked by two orange squares. Below "MODUL" is the word "ELECTRO" in a smaller, orange sans-serif font. At the bottom of the logo is the website address "www.modulelectro.ru" in a grey sans-serif font. A white starburst graphic with eight rays is positioned behind the logo, centered on a dark, curved metallic surface that reflects light, creating a sense of depth and shine.

Nella collezione MOTION non si è voluto rinunciare alla maggiore efficienza della luce alogena evitando, con i nuovi spots GU10 a 220 volts l'utilizzo della bassissima tensione (12 volts). I vantaggi di tale soluzione sono principalmente: corrente a basso numero di amperes, quindi un minore stress dei componenti elettrici e ingombri più contenuti, venendo a mancare il trasformatore di corrente.

The MOTION collection has chosen not to renounce the greater efficiency of halogen light, and the use of the new 220-volt GU10 spots has given the opportunity of avoiding the use of very low voltage (12 volts). The main advantage provided by this solution is low-amperage power supply and, consequently, lower voltage of the electrical components and smaller overall dimensions, since the current transformer is no longer necessary.

The logo for MODUL ELECTRO features the word "MODUL" in a large, bold, orange sans-serif font. The letter "O" is stylized with a square cutout in the center. To the left and right of "MODUL" are square icons: the left one is orange with a white square inside, and the right one is white with an orange square inside. Below "MODUL" is the word "ELECTRO" in a smaller, orange, spaced-out sans-serif font. At the bottom of the logo is the website address "www.modulelectro.ru" in a grey sans-serif font.
