Disegno

L'obiettivo della divisione Disegno è la lettura in chiave contemporanea dell'arte millenaria della soffiatura del vetro.

Le collezioni di luci nascono dalla collaborazione dell'azienda con importanti e selezionati progettisti italiani e stranieri, che propongono la loro interpretazione di questa materia capace di suscitare emozione e di stimolare creatività, al fine di raggiungere un risultato estetico e formale, ma allo stesso tempo funzionale alle diverse esigenze illuminotecniche.

The Disegno collection was created for the purpose of illustrating the many ways that the ancient art of glass blowing can be utilized in truly modern ways. Each piece is the result of a successful collaboration with a very selected group of important Italian and international designers. Each artist uniquely expresses their own ideas and skills and thus, an eclectic and varied collection of light pieces is born.

The beauty of glass inspires genuine creativity for our designers and awakens their emotions, enabling them to arrive at innovative yet purposeful art pieces, which accommodate a myriad of commercial and residential projects.

New Classic

Un nuovo modo di interpretare forme del passato, attraverso colori decisamente inusuali, per lo stile veneziano: lampadari interamente neri rossi o bianco latte, o ancora di altri colori, con forti motivi decorativi.

Sono pezzi che trovano la loro ideale collocazione in spazi arredati in stile contemporaneo, dove il rigore del design viene "spezzato" dall'introduzione di un elemento dirompente, che da solo diventa il protagonista di tutto l'ambiente.

Realizzati in varie dimensioni e principalmente su misura, a seconda dell'esigenza del designer o architetto, trovano riscontro positivo in tutto il mondo, sia per residenze private che per locali pubblici.

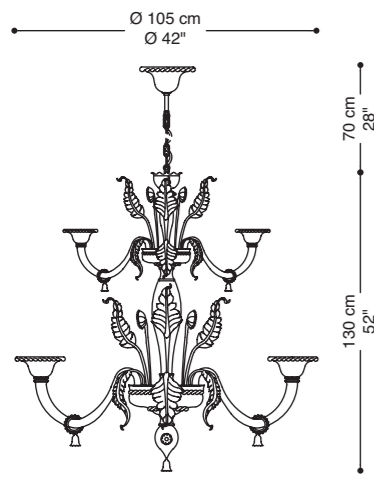

La luce si diffonde attraverso il decoro facendosi portavoce delle più innovative tendenze del design.

Our New Classic collection brings a contemporary flair to the classic shapes of the past through the use of bold coloring and updated styling.

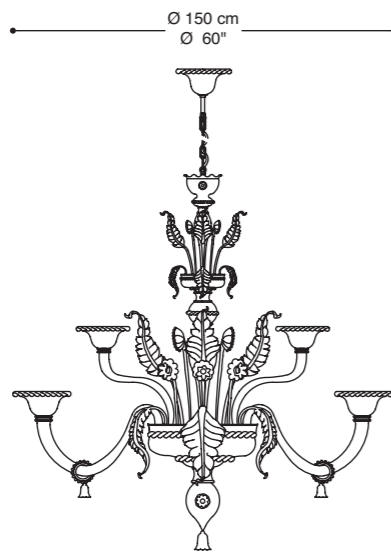

These are pieces intended for modern interior spaces where streamlined design is enhanced with the presence of a bold light piece. Our master glass blowers create these works of art in single or multiple tiers and in sizes to accommodate every project.

Light, transformed through the use of decoration and transparency, becomes a statement in innovation and contemporary design.

Il logo **la murrina**® è di esclusiva titolarità e proprietà di **la murrina**® S.p.A.
Non può essere riprodotto né usato per scopi commerciali, senza il consenso scritto di **la murrina**® S.p.A.
L'azienda si riserva di modificare, in qualsiasi momento e senza nessun preavviso, le caratteristiche tecniche dei prodotti illustrati in questo catalogo.
la murrina® declina ogni responsabilità per eventuali errori di stampa presenti nel catalogo.
la murrina® lavora scrupolosamente con i designer e lo staff tecnico e ingegneristico per garantire sempre un elevato standard qualitativo per ogni singolo pezzo della propria produzione.
I materiali scelti e la componentistica elettrica sono di prima qualità. L'assemblaggio e il controllo viene eseguito in maniera rigorosa da manodopera specializzata.
La produzione del vetro soffiato può presentare alcune minime differenze di peso, colore o spessore, dovute alla elaborazione artigianale dei pezzi. Le eventuali bolle e irregolarità presenti nell'impasto non sono difetti ma caratteristiche preziose ed uniche del vetro soffiato e lavorato a mano artigianalmente.
Ogni corpo illuminante è corredato con una busta contenente un foglio di istruzioni e modalità di assemblaggio.
Modifiche e/o riparazioni di qualsiasi natura apportate al prodotto non autorizzate dopo l'acquisto o il mancato rispetto delle istruzioni di montaggio, possono compromettere la sicurezza del prodotto stesso e provocare situazioni di pericolosità per l'utente.
Pertanto **la murrina**® ne declina ogni responsabilità.
Le dimensioni riportate nei disegni tecnici dei prodotti sono espressi in centimetri e pollici.
Gli apparecchi sono forniti con lampadine.
