Veneziani

L'esperienza di un'arte antica si esprime attraverso la creazione di ricercate collezioni di luci ispirate allo stile veneziano.

Collezioni uniche che si distinguono per tecnica ed originalità di lavorazione e che arricchiscono contesti dal gusto raffinato.

Forme che si ispirano al passato e lo evocano attraverso la bellezza, la trasparenza ed i colori del vetro, materiale che, abbinato alla fonte luminosa, viene valorizzato ed esprime tutta la sua forza decorativa.

Murano glass inspire a sense of tradition and excellence in refined hand-crafted glass art that creates an exclusive touch in any environment.

The Venetian chandeliers have the distinction of not only maintaining their value and importance, but of being the priceless antiques of the future.

La Murrina, a name that represents centuries of this Italian art and tradition, realizes pieces that remind the past through beauty, transparency and colours of glass, a material that combined with the lighting source acquires value and expresses all its decorative strength.

Classici

Le forme sono quelle antiche, spogliate dei motivi decorativi più tipici della tradizione veneziana, e rielaborate con linee più sobrie e pulite.

La purezza e la trasparenza del vetro acquisiscono grande valore e la qualità della lavorazione viene esaltata dalla linearità delle forme e dall'eleganza del prodotto.

Arte e passione si fondono dando vita a prodotti il cui stile, pur non seguendo le tendenze più innovative, si rinnova continuamente nel corso del tempo.

The shapes are the ancient ones, deprived of the decorative motives more typical of the Venetian tradition, and redesigned with more sober and straight shapes.

The purity and the transparency of the glass improve its value and the quality of the manufacturing is exalted by the linearity of the shapes and the elegance of the product.

Art and passion combined together giving life to products whose style, even if does not follow the most innovative tendencies, remains timeless.
