Un año más nos complace presentarle nuestro catálogo LA CREU 2009, en el que encontrará ampliada nuestra gama de productos. Desde aquí queremos agradecerle su confianza en nuestra marca y confirmarle nuestra voluntad de seguir dando una respuesta a sus expectativas.

Once again this year we are pleased to introduce our catalogue LA CREU 2009, which contains our expanded range of lighting fixtures. Likewise, we take this opportunity to thank the many customers who place their trust in our brand and to reaffirm our will to continue meeting their expectations.

De nouveau cette année, nous sommes heureux de présenter notre catalogue LA CREU 2009, qui contient l'ensemble de notre gamme de luminaires. Par la même occasion, nous remercions les nombreux clients qui nous font confiance, et nous affirmons de nouveau notre volonté de poursuivre la recherche de leur satisfaction.

ELECTRO

Es freut uns Ihnen ein weiteres Jahr wieder unseren Katalog LA CREU 2009 vorstellen zu können. Von hier aus wollen wir Ihnen unseren besten Dank für das in unsere Produktmarke gelegte Vertrauen ausdrücken und Ihnen hiermit versichern, dass wir uns auch weiterhin bemühen werden Ihren Erwartungen und Bedürfnisse nachzukommen.

Ancora una altra volta quest'anno abbiamo il piacere di presentari il nostro catalogo LA CREU 2009. Contiene una gamma piu'vasta di lampade. Con l'occasione ringraziamo i nostri numerosi clienti che hanno avuto fiducia nel Nostro marchio ed e'nostra volonta'continuare questo rapporto.

Um ano mais, temos o prazer de apresentar o nosso catálogo LA CREU 2009, onde encontrará todas as novidades da nossa gama. Desde aquí queremos agradecerlhe a sua confiança na nossa marca e confirmarlhe o nosso desejo de prosseguir dando uma resposta cada vez mais adequada às suas expectativas.

VENTILADORES

Las ventajas de los ventiladores de techo La Creu:

Una temperatura óptima Ahorro energético

En Verano:

Los ventiladores giran proporcionando una suave brisa que activa la circulación del aire impidiendo la acumulación de calor en la habitación. En el caso de que exista una instalación del aire acondicionado, los ventiladores hacen circular el aire fresco de forma uniforme, evitando que el aparato de aire acondicionado este en uso de forma constante pudiendo ahorrar energía hasta un 40% y reduciendo la factura de electricidad.

En Invierno:

También en Invierno los ventiladores La Creu son útiles. El aire caliente pesa menos que el aire frío, por lo que tiende a concentrarse en el techo. Los ventiladores La Creu giran inversamente a como lo hacen en verano. Haciendo que el aire acumulado en el techo baje y el calor se distribuya por toda la habitación.

La temperatura ambiente aconsejable en una habitación es de 20 a 24°, cada aumento o disminución de un grado, supone un 6% de los gastos de calefacción.

Escoja el mejor ventilador para cada habitación:

- Habitaciones de hasta 25 m² – Se aconseja un diámetro de ventilador de 112 cm a 122 cm.
- Habitaciones de hasta 40 m² – Se aconseja un diámetro de ventilador de 132 cm a 137 cm.

Situación del ventilador:

- La distancia máxima hasta el suelo 2,4 m. Si existe más distancia el aire no llegará bien.
- La distancia mínima desde el techo hasta la parte superior del ventilador: 30 cm.
- La distancia mínima desde el extremo exterior de la pala hasta la pared: 0,5 m.

The advantages of La Creu ceiling fans:

An optimum temperature Energy savings

In Summer:

The fans rotate and give off a soft breeze that activates air circulation, thus preventing an accumulation of heat in the room. In the event that there is an air conditioning unit, the fans circulate fresh air evenly. They thus prevent the air conditioning unit from being constantly in use. As a result, there can be an energy savings of up to 40% which lowers the electricity bill.

In Winter:

La Creu fans are also useful in Winter. Hot air weighs less than cold air. Therefore, it tends to concentrate near the ceiling. La Creu fans rotate inversely to the direction in which they rotate in summer. They make the air accumulated near the ceiling descend. Then heat is distributed throughout the room. The recommended room temperature for a room is between 20 and 24°. Each increase or decrease by one degree entails 6% of the heating expenses.

Choose the best fan for each room:

- Rooms up to 25 m² – We recommend a fan with a diameter from 112 cm to 122 cm.
- Rooms up to 40 m² – We recommend a fan with a diameter from 132 cm to 137 cm.

Fan location:

- The maximum distance to the floor is 2.4 m. If the distance is greater, the air will not properly reach its target.
- The minimum distance from the ceiling to the upper part of the fan: 30 cm.
- The minimum distance from the blade's outer edge to the wall: 0.5 m.

Les avantages des ventilateurs de plafond La Creu :

Une température optimale Économie d'énergie

En été :

Les ventilateurs tournent en apportant une douce brise qui active la circulation de l'air et empêche l'accumulation de chaleur dans la pièce. Dans le cas où il existe une installation de climatisation, les ventilateurs font circuler uniformément l'air frais en évitant que l'appareil soit en utilisation continue, ce qui permet un économie d'énergie allant jusqu'à 40 % et une réduction de la facture d'électricité.

En hiver :

Les ventilateurs La Creu sont aussi utiles en hiver. L'air chaud est moins lourd que l'air froid, donc il tend à se concentrer au plafond. Les ventilateurs La Creu tournent en sens inverse de celui suivi en été en permettant que l'air accumulé au plafond descende et que la chaleur se distribue dans toute la pièce. La température ambiante conseillée est de 20 à 24 °C; chaque augmentation ou diminution d'un degré suppose 6 % des frais de chauffage.

Choisissez votre ventilateur en fonction de la surface de la pièce à ventiler :

- Pièces allant jusqu'à 25 m² – Un diamètre du ventilateur de 112 à 122 cm est conseillé.
- Pièces allant jusqu'à 40 m² – Un diamètre du ventilateur de 132 à 137 cm est conseillé.

Emplacement du ventilateur :

- Distance maximale jusqu'au sol : 2,4 m. Si la distance est plus grande, l'air n'arrivera pas correctement.
- Distance minimale du plafond au dessus du ventilateur: 30 cm.
- Distance minimale de l'extrémité extérieure de la pale au mur: 0,5 m.

Die Vorteile der Deckenventilatoren La Creu:

Eine optimale Raumtemperatur
Energiesparend

Im Sommer:

Durch die Ventilatorumdrehung wird sanfter Wind erzeugt, die Umwälzung der Luft im Raum gefördert und das Anstauen der Wärme in einzelnen Bereichen des Zimmers verhindert.

Bei gleichzeitigem Betrieb einer Klimaanlage bewirken Ventilatoren ein gleichmäßiges Zirkulieren der kühlen Luft. Auf diese Weise muss das Klimagerät nicht ständig auf Hochtouren laufen und es können bis zu 40% des Energieverbrauchs eingespart werden, was eine dementsprechende Senkung der Stromrechnung zur Folge hat.

Im Winter:

Auch im Winter sind die Ventilatoren La Creu nützlich. Warmluft weist ein geringeres Gewicht als Kaltluft auf, weshalb sie dazu neigt, sich unterhalb der Zimmerdecke anzustauen. Die Ventilatoren La Creu laufen dann in umgekehrter Drehrichtung als im Sommer. Dadurch sinkt die an der Decke angestaute Luft nach unten und die Wärme verteilt sich gleichmäßig im gesamten Raum.

Empfehlenswert ist eine Raumtemperatur zwischen 20 und 24°C. Eine Steigerung um nur einen Grad bewirkt eine Erhöhung der Heizkosten um 6%.

Wählen Sie den geeignetsten Ventilator für jedes Zimmer:

- Zimmer bis zu 25 m² – Empfohlen werden Ventilatoren mit einem Durchmesser von 112 cm bis 122 cm.
- Zimmer bis zu 40 m² – Empfohlen werden Ventilatoren mit einem Durchmesser von 132 cm bis 137 cm.

Montageabstände vom Ventilator:

- Der Höchstabstand zum Boden beträgt 2,4 m. Bei höheren Abständen kann der Luftzug nur unzureichend verspürt werden.
- Der Mindestabstand von der Decke zum oberen Teil des Ventilators beträgt 30 cm.
- Der Mindestabstand von der oberen Kante der Flügelplatte zur Wand beträgt 0,5 m.

I vantaggi dei ventilatori da soffitto La Creu:

Temperatura ottimale
Risparmio energetico

In estate:

I ventilatori girano emettendo una leggera brezza che attiva la circolazione dell'aria, impedendo l'accumulo di calore nell'abitazione.

Qualora sia presente un impianto di condizionamento dell'aria, i ventilatori faranno circolare l'aria fresca in modo uniforme, evitando il funzionamento continuo del condizionatore dell'aria e consentendo quindi un risparmio energetico fino al 40%, con conseguente riduzione dei costi per l'energia elettrica.

In inverno:

I ventilatori La Creu sono utili anche in inverno. L'aria calda ha un peso inferiore rispetto all'aria fredda, poiché tende a concentrarsi sul soffitto.

I ventilatori La Creu girano in senso opposto rispetto a quanto effettuato in estate, consentendo la discesa dell'aria accumulata sul soffitto e garantendo quindi una distribuzione del calore in tutta l'abitazione.

La temperatura ambiente consigliata nelle abitazioni è pari a 20° - 24°; ogni aumento o diminuzione di un grado, è pari al 6% delle spese di riscaldamento.

Selezione del ventilatore più appropriato per ogni abitazione:

- abitazioni fino a 25 m² – si consiglia un ventilatore con diametro da 112 cm a 122 cm.
- abitazioni fino a 40 m² – si consiglia un ventilatore con diametro da 132 cm a 137 cm.

Ubicazione del ventilatore:

- distanza massima dal pavimento 2,4 m. Una distanza maggiore non consentirà una corretta propagazione dell'aria.
- distanza minima dal soffitto alla parte superiore del ventilatore: 30 cm.
- distanza minima dall'estremità esterna della pala alla parete: 0,5 m.

As vantagens dos ventiladores de tecto La Creu:

Uma temperatura ótima
Poupança de energia

No Verão:

Os ventiladores giram proporcionando uma suave brisa que activa a circulação do ar, impedindo a acumulação de calor na habitação.

Caso haja uma instalação de ar condicionado, os ventiladores fazem circular uniformemente o ar fresco, evitando que o aparelho de ar condicionado esteja constantemente em uso, podendo poupar até 40% de energia e reduzindo a factura da electricidade.

No Inverno:

No Inverno os ventiladores La Creu também são úteis. O ar quente pesa menos do que o ar frio, pelo que tende a concentrar-se no tecto. Os ventiladores La Creu giram inversamente à forma como o fazem no Verão, fazendo com que o ar acumulado no tecto baixe e o calor se distribua por toda a habitação.

A temperatura ambiente aconselhável numa habitação é de 20 a 24°. Cada aumento ou diminuição de um grau, representa 6% das despesas de aquecimento.

Escolha o melhor ventilador para cada quarto:

- Compartimentos até 25 m² – Aconselha-se um diâmetro de ventilador de 112 cm a 122 cm.
- Compartimentos até 40 m² – Aconselha-se um diâmetro de ventilador de 132 cm a 137 cm.

Localização do ventilador:

- A distância máxima até ao solo é de 2,4 m. Se houver uma maior distância, o ar não chegará bem.
- A distância mínima desde o tecto até à parte superior do ventilador é de 30 cm.
- A distância mínima desde a extremidade exterior da pá até à parede é de 0,5 m.

Especificaciones técnicas

SIMBOLOGÍA / SIMBOLS / SYMBOLES / SYMBOLE / SIMBOLOGIA / SIMBOLOGIA

-  Classe I • Class I • Classe I • Klasse I • Klasse I • Classe I
-  Classe II • Class II • Classe II • Klasse II • Klasse II • Classe II
-  Classe III • Class III • Classe III • Klasse III • Klasse III • Classe III
-  Instalable sobre una superficie normalmente inflamable • Suitable for installation on normally inflammable surfaces • Installation sur une surface normalement inflammable • Darf unter normalen Bedingungen auf leicht entzündbaren Oberflächen angebracht werden • Tutte le lampade contraddistinte con questo simbolo sono costruite in modo tale da poter essere installate su di una superficie normalmente infiammabile • Instalável sobre uma superfície normalmente inflamável
-  No pueden ser instaladas en superficies inflamables • Unsuitable for installation on normally inflammable surfaces • Ne pas installer sur des surfaces normalement inflammables • Darf unter normalen Bedingungen nicht auf leicht entzündbaren Oberflächen angebracht werden • Tutte le lampade contraddistinte con questo simbolo non possono essere installate su di una superficie normalmente infiammabile • Não podem ser instaladas em superfícies inflamáveis
-  Fabricado según normas de seguridad y electromagnetismo de Europa • Manufactured according to the set safety and electromagnetism standards of Europe • Fabriqué en conformité avec les normes de sécurité et d'électromagnétique de l'Europe • Europa geltenden Sicherheitsbestimmungen • Tutti i prodotti fabbricati rispettano le norme di sicurezza e di elettromagnetismo europee • Fabricado de acordo com as normas de segurança e electromagnetismo da Europa
-  Resistente al hilo incandescente a 850°C • Resistance to incandescent wire at 850°C • Tenue au feu 850°C • Glühdrahtbeständig auf 850°C • Resistente a filo incandescente 850°C • Resistente ao fio incandescente a 850°C
-  Lámpara protegida contra la penetración de objetos sólidos mayores de 12mm y contra el agua en forma de lluvia hasta 60° de inclinación • Lamp protected against ingress of solid objects greater than 12mm and against spraying water • Luminaire protégé contre la pénétration d'objets solides d'une taille supérieure à 12mm, et contre l'eau de pluie inclinée à plus de 60° • Lampe geschützt gegen das Eindringen von festen Gegenständen, die größer als 12 mm sind und gegen Regenwasser mit einer Inklination bis zu 60° • Lampada protetta contro la penetrazione di oggetti solidi più grandi di 12 mm e contro l'acqua a forma di pioggia fino a 60° di inclinazione • Luminária protegida contra a penetração de objetos sólidos >12mm e contra a penetração de água em forma de chuva até uma inclinação de 60°.
-  Lámpara protegida contra la penetración de objetos sólidos mayores de 1mm y contra proyecciones de agua en todas direcciones • Lamp protected against ingress of solid objects greater than 1mm and against splashing water • Luminaire protégé contre la pénétration d'objets solides d'une taille supérieure à 1mm, et contre les projections d'eau dans toutes les directions • Lampe geschützt gegen das Eindringen von festen Gegenständen, die größer als 1 mm und gegen Wasserstrahlen aus allen Richtungen • Lampada protetta contro la penetrazione di oggetti solidi più grandi di 1 mm e contro le proiezioni d'acqua in tutte le direzioni • Luminária protegida contra a penetração de objetos sólidos >1mm e contra projeções de água em todas as direções.
-  Lámpara totalmente protegida contra la penetración de polvo y contra chorros de agua en todas direcciones • Lamp dust-tight and protected against water jets • Luminaire totalement protégé contre les poussières et les jets d'eau dans toutes les directions • Lampe vollkommen geschützt gegen das Eindringen von Staub und gegen Wassergüsse aus allen Richtungen • Lampada completamente protetta contro la penetrazione di polvere e contro getti d'acqua in tutte le direzioni • Luminária protegida contra a penetração de pó e contra jactos de água em todas as direções.
-  Distancia mínima entre el foco de la luminaria y el objeto iluminado • Minimum distance to be left between the focus of the lighting fixture and the lightened object • La distance minimum pour être gauche entre le foyer de l'accessoire d'éclairage et l'objet allumé • Mindestabstand zwischen dem Scheinwerfer der Leuchte und dem beleuchteten Gegenstand • Distanza minima tra la lampada e l'oggetto illuminato • Distância mínima entre o foco da luminaria e o objeto iluminado.
-  Dirección del halo de luz • Halo light direction • Direction du faisceau lumineux • Lichtstrom in Richtung • Direzione dall'halo • Direção do feixe de luz.
-  Uds. de embalaje • Items per box • Unité d'emballage • Verpackungseinheiten • Unità d'imballaggio • Uds. de embalagem
-  Modelos registrados • Registered models • Modèles enregistrés • Eingetragene Modelle • Modelli registrati • Modelos registados
-  Energy saving
-  Transformador electrónico incluido • Electronic recessed transformer • Transformateur électronique inclus • Elektronisches Vorschalgerät inkl. • Trasformatore elettronico incluso • Transformador eletrônico incluso
-  Palas reversibles de 2 colores • 2 colors reversible blades • Lames réversibles du 2 couleurs • 2 Farben umkehrbare Blätter • Lame reversibili di 2 colori • Láminas revogáveis do 2 cores
-  Revoluciones por minuto • Revolutions per minute • Revolution per minute • Umdrehungen pro Minute • Rivoluzioni al minuto • Rotações por minuto
-  3 Velocidades • 3 Speeds • 3 Vitesses • 3 Geschwindigkeiten • 3 velocità • 3 velocidades
-  Silencioso • Quiet • Silencieux • Silent • Silenzioso • Silencioso
-  Control remoto incluido • Remote control included • Télécommande inclus • Fernbedienung inklusiv • Comando a distanza incluso • Controle remoto incluído
-  Palas de metacrilato transparente • Transparent methacrylate blades • Pale en méthacrylate transparent • Durchsichtig methacrylate Blätter • Pale metacrilato trasparente • Pás metacrilato transparente
-  El giro a la izquierda crea un efecto refrigerante, perfecto para el verano • A rotation to the left causes a cooling effect, perfect for the summer • La rotation vers la gauche crée un effet rafraîchissant, parfait pour l'été • Die Umdrehung nach links verursacht ein Kühleffekt, ideal für den Sommer • Girare a sinistra ci da un effetto refrigerante, ottimo per l'estate • A rotação à esquerda cria um efeito refrescante, que é ideal para o Verão
-  El giro a la derecha envía el aire más caliente hacia abajo, ideal para el invierno • A rotation to the right sends warm air down, ideal for the winter • La rotation vers la droite envoie l'air le plus chaud vers le bas, idéal pour l'hiver • Die Umdrehung nach rechts sendet die Warmluft abwärts, ideal für den Winter • Girare a destra guida l'aria più calda in basso, ideale per l'inverno • A rotação à direita envia o ar mais quente para baixo, que é ideal para o Inverno

CODIFICACIÓN / CODIFICATION / CODIFICATION / BESTELL-NUMMER / CODIFICA / CODIFICAÇÃO

Para realizar el pedido de un artículo es necesario colocar después de la referencia del modelo los dos números que identifican el acabado seguidos de los dos números que corresponden al código suplementario.

When placing an order for an item, please quote after the model reference number, the two numbers indicating the required finish and the two supplementary code numbers.

Pour passer commande d'un article il faut indiquer après la référence du modèle, les deux numéros identifiant la finition, suivis de deux numéros correspondants au code supplémentaire.

Bei der Bestellung eines Artikels müssen hinter der Modell-Nr. die zwei Ziffern für die Ausführung und die zwei Ziffern des Zusatzcodes angegeben werden.

Per ordinare un articolo, si deve inserire, dopo la referenza, i 2 numeri per la finitura ed anche i 2 numeri per il codice supplementario.

Para efectuar a encomenda de um artigo é necessário colocar depois da referência do modelo os dois números que identificam o acabamento, seguidos dos dois números que correspondem ao código suplementar.

CONDICIONES GENERALES

INFORMACIÓN GENERAL:

Las descripciones y medidas de los aparatos del presente catálogo son orientativas, pudiendo por tanto ser modificadas, a fin de mejorar las características técnicas o de diseño / La empresa se reserva el derecho de anular o modificar cualquiera modelo sin previo aviso / Todos los modelos presentados cumplen las normas exigidas por la C.E. para aparatos de iluminación de uso doméstico y sus características vienen determinadas por las clases I y II / Los acabados y las especificaciones técnicas corresponden a los productos que se suministran en Europa, pudiendo estos variar en otros mercados / Para una buena conservación de las lámparas, no usar bombillas de potencia superior a las recomendadas y limpiar simplemente con un paño seco. No usar limpia metales, ya que dañan los barnices protectores que garantizan la duración del acabado.

GENERAL INFORMATION:

The descriptions and dimensions of the items in this catalogue are indicative and may be modified for the purpose of technical or design improvements / We reserve the right to cancel or change all models without prior notice / All items meet the E.C. Class I and Class II safety regulations for home lighting appliances / The finishes and technical specifications listed here are for the European market and may vary elsewhere / Do not use stronger bulbs that recommended, and allways clean lamps with a soft dry cloth alone since metal polish will damage the protective finish.

INFORMATION GENERALE:

Les descriptions et mesures des appareils de ce catalogue sont données à titre d'orientation, pouvant être modifiées dans le but d'améliorer les caractéristique techniques ou de design / L'usine se réserve le droit d'annuler ou modifier l'un ou l'autre de ses modèles sans avis préalable / Tous les modèles présentés sont conformes aux normes exigées par la C.E. pour les appareils d'éclairage domestique et leur caractéristiques sont déterminées par le classe I et II / Les finitions et spécifications techniques correspondent à la demande du marché européen. Elles peuvent être modifiées par d'autres pays / Ne pas utiliser d'ampoules d'une puissance supérieure à celle recommandée. Pour un bon entretien, utiliser simplement un chiffon sec. N'utilisez aucun produit pur métaux, ils abiment le vernis protecteur.

www.modulelectro.ru

ALLGEMEINE INFORMATIONEN:

Die Beschreibung und Maße der in diesem Katalog aufgeführten Modelle dienen zur Orientierung und können zur Verbesserung der technischen Eigenschaften oder des Designs geändert werden / Der Hersteller behält sich das Recht vor, Modelle zu ändern oder aus dem Programm wegzunehmen / Die geeigneten Modelle erfüllen alle die innerhalb der EU geforderten Normen und Richtlinien für Leuchten für allgemeine Beleuchtungszwecke der Schutzklassen I und II / Die Ausführungen und technischen Daten gelten für den europäischen Markt und können in anderen Ländern abweichen / Für eine gute Erhaltung der Leuchten bitten wir immer den empfohlene Leuchtmittel zu benutzen (keine höhere Leistung). Zur Reinigung benutzen Sie einfach ein trockenes Tuch, da Metallputzmitteln die Schutzlackierung angreifen können.

INFORMAZIONE GENERALE:

Le descrizione e le dimensioni degli articoli del presente catalogo vengono fornite a mero titolo orientativo e possono pertanto essere modificate al fine di migliorarne le caratteristiche tecniche o di design. / La Casa si riserva il diritto di cessare la produzione o di modificare qualsiasi modello senza preavviso. / Tutti i modelli presentati sono conformi alle normative C.E. per gli articoli da illuminazione per uso domestico di classe I e II. / Le rifiniture e le specifiche tecniche corrispondono ai prodotti venduti in Europa; tali dati possono pertanto variare su altri mercati. / Per una buona conservazione delle lampade, non utilizzare lampadine di potenza superiore a quella consigliata e pulirle semplicemente con un panno asciutto. Non utilizzare prodotti per la pulizia del metallo che potrebbero rovinare le vernici di protezione che garantiscono la vita della rifinitura.

INFORMAÇÃO GERAL:

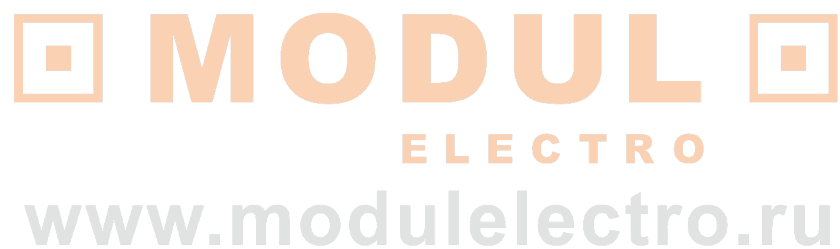

As descrições e medidas dos aparelhos do presente catálogo são orientativas, podendo, por isso, ser modificadas, para se melhorarem as características técnicas ou de concepção. / A empresa reserva-se o direito de anular ou modificar qualquer modelo sem aviso prévio. / Todos os modelos apresentados cumprem as normas impostas pela C.E. para aparelhos de iluminação de uso doméstico e as suas características estão determinadas pelas classes I e II. / Os acabamentos e especificações técnicas correspondem aos produtos fornecidos na Europa, podendo estes ser diferentes em outros mercados. / Para uma boa conservação das lâmpadas, não use lâmpadas de potência superior às recomendadas e limpe apenas com um pano seco. Não use limpa metais, dado que danificam os vernizes protectores que garantem a duração do acabamento.
